

# Do you have Special Educational Needs or a Learning Disability?

I've heard  
you can help  
people at  
school and  
college.

Yes we can help. We can talk to you about what you are finding difficult and discuss your choices about what to do next. We can also support you at meetings.

Can you  
help me  
with my  
EHCP?

We can explain to you what an Education Health & Care plan is, and support you to complete the forms. We can also support you at your annual review.

How could  
I contact  
you?

You can come to our office or we can arrange to meet somewhere.  
We can phone, text or email you if you prefer.

What else  
can you  
help me  
with?

We can help you prepare  
for meetings such as  
annual reviews.

We can help you to tell  
people what you think  
about school or college.

We can explain how to  
get the services and  
support you need,  
such as asking for an  
Education Health &  
Care Needs Assessment.

We can help you tell  
people if you don't agree  
with a decision that has  
been made about you.

Can I trust  
your  
service?

Our service is confidential.  
That means our meetings  
will be private.

We would only talk to  
other people about what  
you tell us if you say that  
it is ok. The exception is  
if we are very worried  
that you are not safe.
